

Transportation Department

Promoting Education through Quality Transportation

April 27, 2018

Dear Parents/Guardians:

As we close out the 2017-18 school year, we would like to take this opportunity to share information with you about transportation improvements the Chula Vista Elementary School District is making to streamline processes and increase efficiency at Salt Creek Elementary.

In order to continue to maximize the efficiency of our operations, the Transportation Department is making changes to bus routes for the 2018-19 school year. These changes will help to improve overall bus service while enhancing safety and the traffic flow in our school communities. Our ultimate goal is to create a safer and more sustainable system that best meets our school system's long-term needs.

There will be nine stops within the surrounding eligible communities (see attachment) for students to utilize. All students will be within three-quarters of a mile to their nearest bus stop. Additionally, the eligibility distances will be enforced at the Duncan Ranch Rd & N Compass Cir SE and Northwoods Dr & Blue Ridge Dr NW stop. Students will need to meet the eligibility requirements on the district's website to utilize these two stops.

In July you will receive a letter indicating your child's bus stop location, pickup and return times, and bus route number for next school year. We are sharing the above information with you well in advance to make you aware of the upcoming changes for the new school year. We would like to invite you to come learn more about transportation and the modifications we are making. Please join us on Tuesday, May 1st at 9:00 AM or 6:00 PM at Salt Creek Elementary.

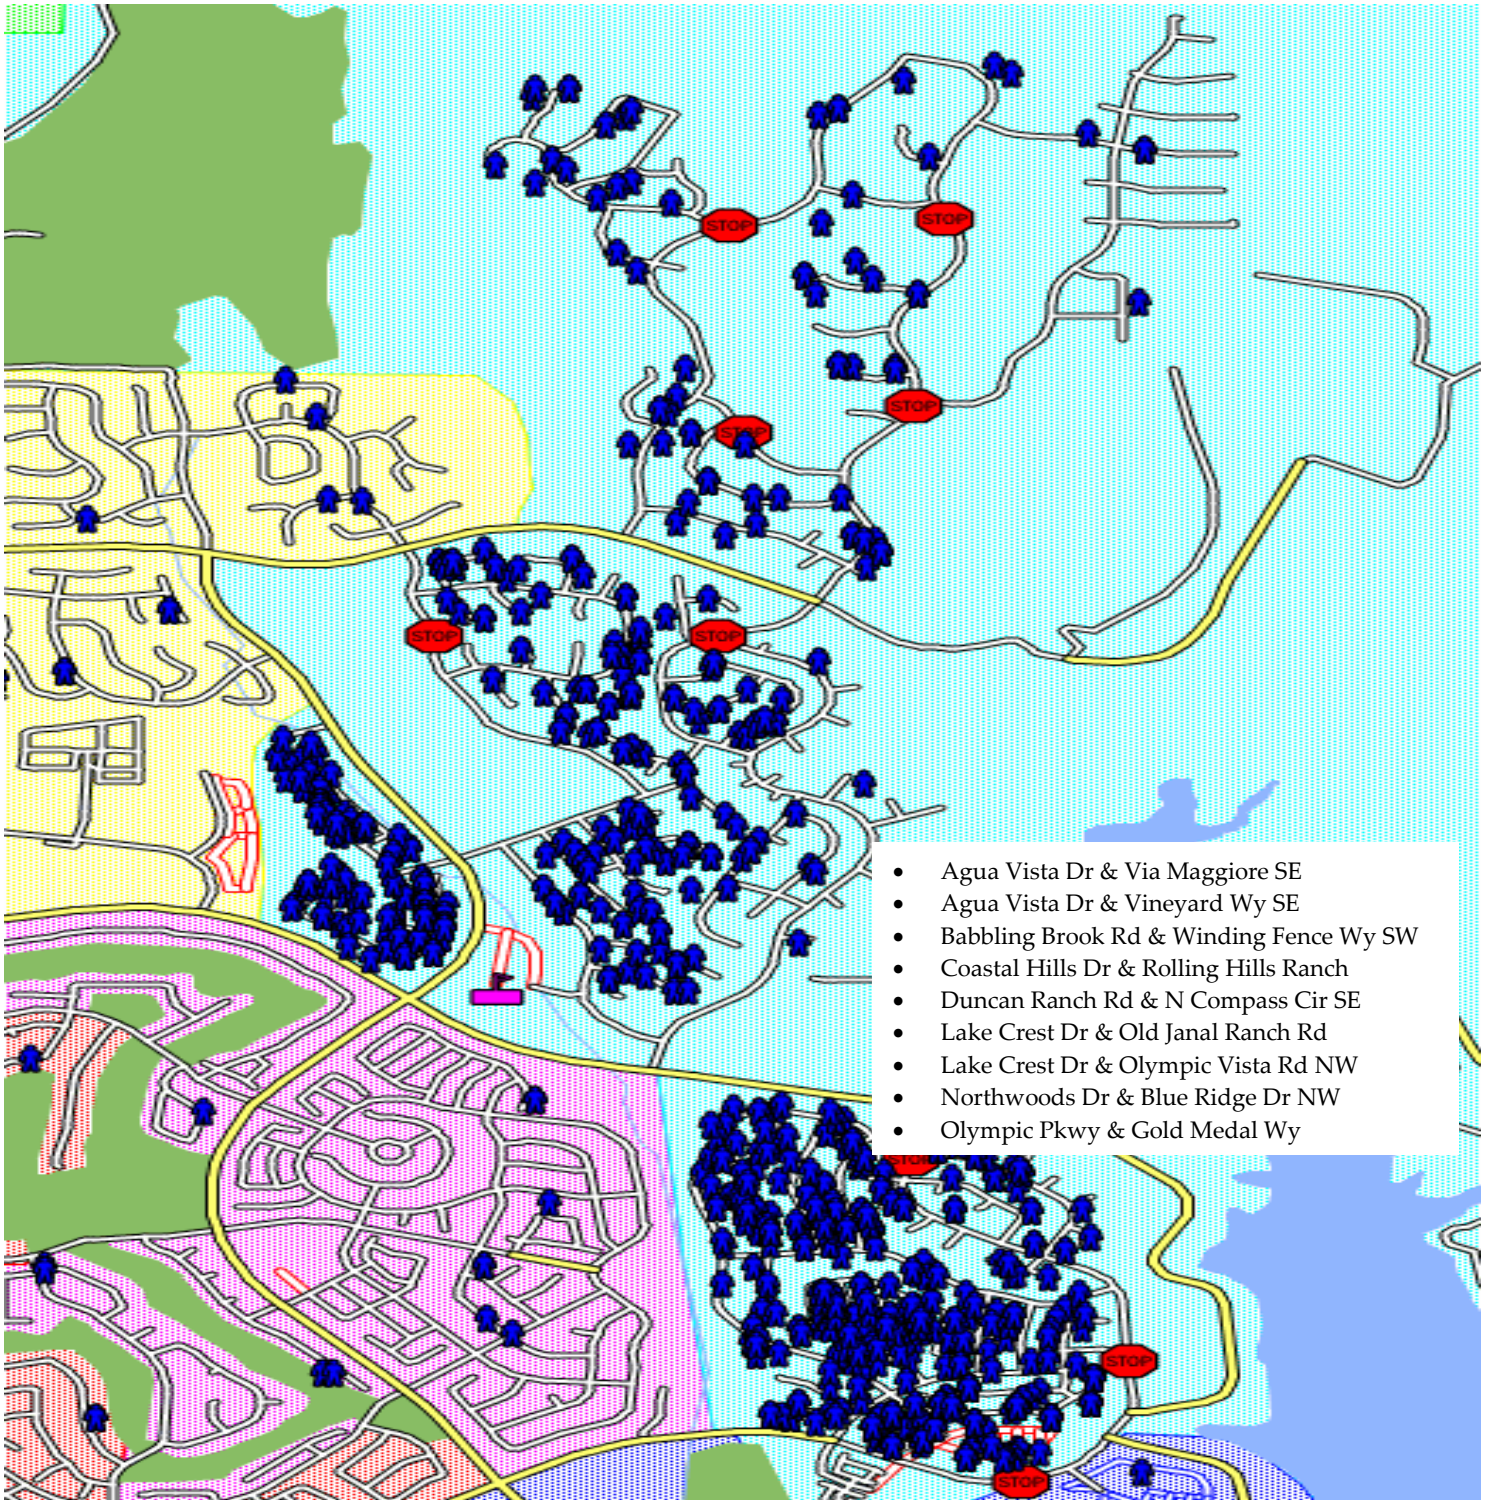

If you have any questions, you may call the Transportation Department at (619) 656-5600 or visit our website, cvesd.org/district/business_services/transportation_department. Thank you for your ongoing support as we promote your child's education through quality transportation.
