

Tips for Parents on Coping with Pandemic Flu

PLAN FOR AN EXTENDED STAY AT HOME DURING A FLU PANDEMIC

- Ask your employer about how business will continue during a pandemic.
- Ask your employer if you can work from home during a flu pandemic.
- Plan for a possible reduction or loss of income, if you are unable to work or your place of employment is closed.
- Check with your employer or union about leave policies.
- Check with your school district for home learning activities. Have materials, such as books, on hand.
- Plan recreational activities that your children can do at home.

ITEMS TO HAVE ON HAND FOR AN EXTENDED STAY AT HOME

Non-perishable foods

- Ready to eat canned meats, fruits, vegetables, soups
- Protein or fruit bars
- Dry cereal or granola
- Peanut butter and jelly
- Dried fruit, nuts, trail mix
- Crackers
- Canned juices
- Bottled water
- Canned or jarred baby food
- Baby formula
- Pet food
-

Health and emergency supplies

- Prescribed medical supplies such as glucose and blood pressure monitoring
- Soap and water or alcohol based hand wash
- Medicines for fever, such as acetaminophen (Tylenol) or ibuprofen (Motrin)
- Thermometer
- Vitamins
- Fluids with electrolytes, such as Pedialyte®
- Flashlight with extra batteries
- Portable radio with extra batteries
- Manual can opener
- Garbage bags
- Tissues, toilet paper, disposable diapers

IF SOMEONE IN YOUR HOME DEVELOPS FLU SYMPTOMS (FEVER, COUGH, MUSCLE ACHES)

- Encourage plenty of fluids to drink.
- Keep the ill person as comfortable as possible. Rest is important.
- For adults with fever, sore throat and muscle aches, use ibuprofen (Motrin) or acetaminophen (Tylenol).
- **Do not use aspirin in children or teenagers;** it can cause Reye's syndrome, a life-threatening illness.
- Sponging with tepid (wrist-temperature) water lowers fever only during the period of sponging. **Do not sponge with alcohol.**
- Keep tissues and a trash bag for their disposal within reach of the patient.
- All members of the household should wash their hands frequently.
- Keep other family members and visitors away from the person who is ill.
- Contact a healthcare provider for further advice. If the ill person is having difficulty breathing or is getting worse, contact the healthcare provider right away.
