**SCHOOL ACCOUNTABILITY REPORT CARD**

The Governing Board views School Accountability Report Cards as a way to inform the community about conditions, needs, and progress at each school and to help provide data to parents and guardians. This document should serve as an opportunity to communicate with the public, review achievements, identify areas for improvement, enlist local support, enhance internal operations, build consensus, and establish a vision for the future.

The Superintendent or designee shall maintain a process for developing annual report cards for each school site with input from all segments of the school community. After the report cards are issued, the Superintendent or designee shall provide opportunities for staff and the community to discuss their content and strategies for communicating the information contained in the cards to all stakeholders.
