

Students

**PERFECT ATTENDANCE**

The Governing Board understands the link between school attendance and learning and supports programs that promote daily attendance at school. To honor students who have achieved perfect attendance during seven years of enrollment from kindergarten through sixth grade, the Superintendent or designee shall establish criteria for an annual perfect attendance award and report each year to the Governing Board the names of those students who have qualified for this recognition.

A similar award for nine years of perfect attendance will be provided to qualifying students completing a District middle school.
